

# Rovers

GREAT MASAI WARRIOR,

Our journey is getting closer.

We're starting the final countdown and expectations are getting stronger by taking place in your thoughts.

Here, you'll be able to gain access to the most recent news from Terras da Felicidade (Land of Happiness).

Today, we'll reveal some important information about the Rover camp structure. We'll begin by explaining how the Masai Nation is organized.

Masai Nation is divided into 10 Peoples: Savana, Vale, Montanha, Lago, Floresta, Deserto, Estepe, Rio, Vulcão, Desfiladeiro and Selva.

Each People is a group of 10 Famílias, and each Family is made up of 25 Masai warriors, you.

The Family is the base unit of the Masai Nation, and each warrior is expected to play their role within it with pride and authenticity, and thus fully live this journey.

Within the Family you'll find other warriors, who will become true brothers and sisters to you. After all the adventures and challenges you'll face, we're sure lifelong friendships will emerge.

We're looking forward to welcoming all of you in Terras da Felicidade!

# What to bring?

Here you'll find the list of items each Rover should bring.

Read it carefully to make sure you have in your backpack everything you need for this magical week in Terras da Felicidade.

- Kitchen supplies (enough to cook for a Family):
  - Water jug (20 L min.);
  - Min. of 2 stove burners;
  - Gas canister (compatible with the stove);
  - 2 ABC Chemical Powder Extinguishers and fire blanket;

- Cooking gear (pots/pan, frying pan, kettle, kitchen knives, wooden spoons, serving utensils);

## Challenge

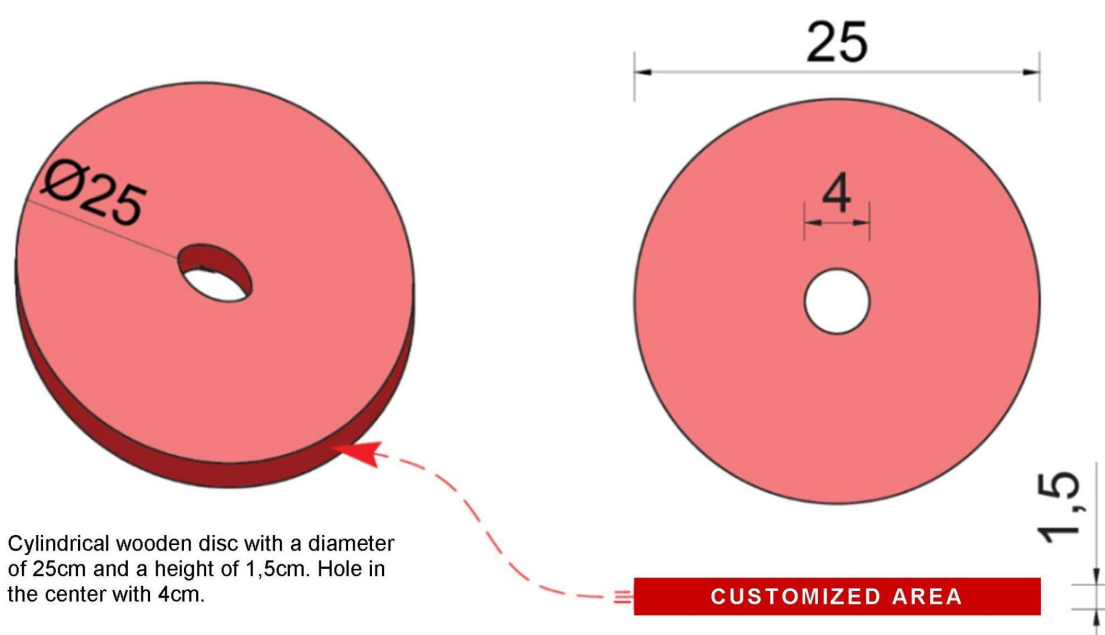

Because we're reaching the final countdown, it's time to present you with a challenge.

As in any journey that a warrior accepts as their own, preparation is essential and sometimes challenging, as becoming aware of the baggage one carries takes place in the mind of those who embrace a new challenge.

In their knapsack, the warriors carry the tools that will help them overcome all obstacles and enjoy the beauty of the path the best way possible. In their mind, they carry experiences and establish roots that give them resilience and help them reach their goals and to never give up. These are their roots, solid foundations of their family and clan, which allow them to build themselves.

And it is the roots of your clan/ Rover crew that now become a challenge. In your baggage,

you must materialize where you come from, what unites you and what identifies you. We ask that, per clan/ crew, you bring a circular wooden crown with the dimensions indicated below:

You should customize this representation as you see fit, noting that only the surrounding strip (1.5 cm high) will be visible, that the inner cut should not be obstructed, and that the entire piece cannot exceed the indicated height of 1,5 cm.

Materialize your bases so that you can enjoy everything that arises from this representation.

This is just the beginning of something that we will build as warriors, families and people of the great Masai Nation.

We wait for all of you and your creativity in Terras da Felicidade.
